

Silicone-free Defoamer

Cleanity Premium

Description

Silicone-free defoamer is a silicone-free product for the removal of process foams

Characteristics

Its high efficiency allows working with small doses of product. It is effective, long lasting and safe.

Suitable for the elimination of foam in cleaning processes in food and cosmetic industry. It allows working in a wide range of temperatures, especially at temperatures above 40°C.

Physico-chemical properties

Appearance	Clear liquid
Colour	Yellowish
Density at 20°C	0,98 g/cc
pH	9,5
Solubility	Dispersible in water
Dose	0,01% - 5%

Instructions for use

Manual: Add the product on the tank where the foam is generated achieving a concentration between 0.01% and 5%. Easy dilution in cold water. Always rinse with potable water.

Automatic washing machines: Dosage of the product to achieve a concentration between 0.01% and 5%. Easy dilution in cold water. Always rinse with potable water.

Cautions and environmental information

See Product Safety Data Sheet.

The raw materials used comply with the Sustainable Development criteria promoted by the "Charter for Sustainability Project".

The surfactants contained in this preparation comply with the biodegradability criteria stipulated in Regulation (EC) N° 648/2004 on detergents.
